**EDMONTON REPRESENTATIVES:** D. H. Hicks, Melvin Hansen, W. P. Lemp,  
Henry Maudie, Frank McLean, John Motyl, Jack McMillan,  
A. W. C. Williston, L. F. Klakowich.

We want more men for our Monthly Division in Edmonton and Calgary. Take the case of one man who started with us on January 19, 1948. He received \$35.00 a week for the maintenance of his home during the month of April. Over and above that he received in commissions a total of \$187.00, making a total of \$362.00 that he received for his efforts for the month of April. The commissions will continue for a period of twelve months, and his outstanding commissions amount to about \$1,500.00.

Besides The Monthly Division we are developing and building up our Standard Divisions in Edmonton and Calgary and soon we will open up offices in Lethbridge where we will also establish the two divisions. We don't want temporary men. We want men who will make this their permanent business in life. You will see from the above that the remuneration is very substantial.

In recent months eight of our field men have been appointed to the responsible positions of General Managers and Superintendents of Monthly Divisions, in which positions the remuneration is very substantial.

# Introductory

The present volume constitutes the 1948 edition of Henderson's Directory of Edmonton. The work embodies a complete epitome of the civic, commercial, social, and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all the essential features which have been proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons. The approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

## THE STREET AND AVENUE GUIDE

THE STREET AND AVENUE GUIDE starting at page 25 features the names of all streets and avenues; arranged alphabetically and numerically, giving the location, number on the street and showing the occupant.

The intersecting streets are shown in the order that they come.

♦ Denotes that someone living in the house is the owner.

\* Denotes there is a telephone in the house.

## THE ALPHABETICAL DIRECTORY

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations starts at page 193.

## THE CLASSIFIED BUSINESS DIRECTORY

THE CLASSIFIED BUSINESS DIRECTORY commences on page 809, and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or profession followed.

## EDMONTON POPULATION, 131,392

The Directory estimate of population is based on the actual number of individual's names in the Alphabetical section of the Directory, with due allowance for children and for women whose names are not listed. The Edmonton Directory covers considerable territory beyond, but tributary to the city limits, which is canvassed in order that the names of all people employed or who purchase in Edmonton may be obtained.

## ADVERTISING EDMONTON

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers have placed copies of this issue of the Directory in the directory libraries, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Calgary, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

Respectfully,

The Publishers,

HENDERSON DIRECTORIES LIMITED.

July, 1948.

## PUBLISHERS' NOTE

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

## Edmonton

Population Jan 30, 1918

126,000

Edmonton is the capital of Alberta. As a name in Canadian history it dates from 1795. In that year the Hudson's Bay Company built a fur post on the North Saskatchewan River about 25 miles below the site of the present Edmonton, beside Old Fort Augustus, built the previous year by the Northwest Fur Company. It was named after Edmonton, near London, England, by George Sutherland, the Hudson's Bay officer who built it because that was the birthplace of his clerk, John Pruden. In 1807 both Old Fort Edmonton and Old Fort Augustus were destroyed by the Blood Indians and both companies promptly built new posts—New Fort Edmonton and New Fort Augustus, on the bank of the river where the city stands today. After the amalgamation of the two great fur companies it became the principal fur depot of what is now known as the Province of Alberta.

From Fort Edmonton the windings of the Saskatchewan River could be followed for hundreds of miles and never a flotilla up or down stream but halted to trade beneath its wooden walls. Overland trails led southwards to the Blackfeet Country, and northward to the Athabasca River, the great fur-bearing country of the Crees, the Beavers and the Chipewyans.

Every spring the furs, the leather and the pemmican, gathered from a hundred points, were sent down the river to York Factory and exchanged for goods needed in the fur trade.

Today the trails are laid with railway lines and highways, while on the site of the old fort now stand the Parliament Buildings of Alberta, and on the opposite bank of the river the magnificent buildings of the Provincial University. Around the old site in the most modern fashion paved streets, spacious parks, stores, houses, and factories have been built and the former fur post has grown into a metropolitan city. The situation is ideal from the standpoint of landscape beauty, and as wealth and population increase, Edmonton will rank as one of the beautiful cities of the continent.

### LOCATION AND ADVANTAGES

Edmonton (latitude 53—35; longitude 113—30) is located 318 miles north of the boundary between Montana and Alberta; 200 miles east of the Rocky Mountains; 770 miles from Vancouver on Canadian National Railways via Jasper; 840 miles from Vancouver on Canadian Pacific Railway via Banff and Calgary; and about 800 miles west of Winnipeg via either Canadian National or Canadian Pacific.

It is the commercial and financial centre of 75,000 square miles of territory, rapidly increasing in population and wealth, and contains at the present time 600,000 people distributed on the farms and in the towns and villages of Central and Northern Alberta. Moreover, it is the natural gateway to a vast region now being developed—a region comprising nearly one-quarter of the area of Canada, namely: the Upper Valley of the Saskatchewan, the great drainage basins of the Athabasca, Peace, Slave, and MacKenzie Rivers and the western half of the Precambrian Shield. A growing and lucrative trade is growing up with that wonderful North.

and Edmonton merchants send their station, fur post and trapper's cabin from McMurray to the Coronation Gulf.

The City is also an important highway centre. A good road exists from Edmonton to Jasper Park, 248 miles west, thence via the famous Jasper-Banff Highway to Lake Louise and Banff. The widely-publicized Alaska Highway, over 1,600 miles in length, has its start at Edmonton, thence north by way of Lesser Slave Lake, Peace River, Grande Prairie, to Dawson Creek and Fort St. John, thence to Whitehorse and Fairbanks. The road is at present a military road and tourist and civilian travel is restricted.

### HOTELS AND ACCOMMODATION

The City has numerous hotels, apartment houses and private boarding houses that cater to every class of tourist and traveler.

### PARKS AND RECREATION

Edmonton has plenty of places of interest both within and without its borders. The social side of life—sport and recreation—is fostered by many organizations and clubs. The theatres give the public the best in moving pictures, vaudeville and road shows. Tennis, baseball, football, cricket and other games are well provided for either by special athletic grounds or in the several city parks. Outstanding is the Clarke Stadium that has a seating capacity of 4,000. The Stadium grounds comprise 8.6 acres and provide for rugby, soccer, lacrosse and track events. Contiguous to the Stadium are a cricket pitch, hard and softball grounds.

The principal parks are: Victoria, 200 acres; Riverside, 30 acres; Borden, 60 acres; and Exhibition Park, 80 acres.

Edmonton's Annual Summer Fair draws thousands of visitors. Breeders of livestock from all over Canada and many states are regular exhibitors.

### EDMONTON GOLF COURSES:

Devotees of the royal and ancient game of golf find in Edmonton a perfect setting for their favorite out-of-door sport. The bright, pleasant days of spring and summer with their long twilight evenings provide ideal golfing even after the business of the day is over.

The Edmonton Golf and Country Club: The Country Club course occupies a commanding situation on the banks of the Saskatchewan River, some eight miles south-west of the City.

Mayfair Golf and Country Club: The Mayfair course is beautifully situated in the valley of the Saskatchewan just beyond the University of Alberta.

The Municipal Golf Course, in Victoria Park, is one of the beauty spots of Edmonton. On the one hand rises the green slope of the valley; on the other, the Saskatchewan River winds through tree-clad banks. The valley curves with the bends of the river, the whole forming a natural amphitheatre—fit spot for a city's playground.

The Highlands Golf Course, in the east end of the City and the Prince Rupert Golf Course, the latter operated by the Hudson's Bay Company, close to the centre of the City, is the latest addition and is becoming very popular.

### MUNICIPAL SWIMMING POOLS

Edmonton is well-equipped for safe out-door bathing. Three modern equipped swimming pools are in operation during the spring, summer and autumn months.

The pools are under the direct charge of the City Engineer. Each pool has a qualified swimming instructor. The water is filtered, heated and sterilized and bacterial tests are regularly made by the city bacteriologist.

### NATURAL GAS

Edmonton has an abundant supply of natural gas, a supply that should last from forty-five to fifty years. The present sources of supply are the Vik and Kinsella fields, located about 80 and 90 miles, respectively east of the City. Over 16,600 consumers in Edmonton use natural gas for domestic, commercial and industrial purposes, the majority using gas for heating. The annual consumption is about 7 billion cubic feet.

### CENTRE OF TRANSPORTATION

Edmonton is the centre of transportation for Alberta and the North, from which radiates a net-work of railway lines extending into the Peace River area, eastward and westward to the borders of the Province, and southward through a rich agricultural and farming area. Transcontinental lines of the Canadian National Railways pass through the City and the Canadian Pacific Railway makes contact with many points through which the transcontinental lines of that Company pass. It is also the headquarters of the Northern Alberta Railways.

The airways development of the continent has brought Edmonton into prominence as one of the strategic centres of air transportation. Regional offices of Canadian Pacific Air Lines are located here.

Trans-Canada Air Lines maintains adequate service to both east and west via Lethbridge. It is also operating a service from Toronto through Winnipeg to Edmonton, using four-motor equipment.

Edmonton has a class "A" airport centrally located within the City limits and a further satellite field at Nmao, seven miles north of the centre of the City. Over 15,000,000 dollars was spent in developing these two fields.

In addition, a seaplane base is located at Cooking Lake, twenty miles east of Edmonton, and there is supplementary landing on the Saskatchewan River at the eastern boundary of the City.

### EDMONTON CHAMBER OF COMMERCE

Edmonton has had a Chamber of Commerce for over fifty-seven years. Information on all matters relating to the resources of the district, business opportunities, is freely given by a competent staff in the McLeod Building, opposite the Post Office.

### EDMONTON INDUSTRIAL DEVELOPMENT BOARD

With representatives from the City Council, the Edmonton Chamber of Commerce and the Trades and Labor Council, the Edmonton Industrial Development Board has been set up for the purpose of receiving enquiries for the development of trade and commerce in the City and District.

Complete information is available to all enquirers regarding markets, costs or operation, taxes, etc.

### RETAIL CENTRE

As befits a city serving so large a community, Edmonton's retail stores are large, numerous and well-stocked. They vie with thousands in larger and older cities in the display of things new and beautiful. They range from the big department store to the specialty shop and the modest corner store. Every style of mercantile trading is represented by the various wholesale houses and jobbing firms.

### WHOLESALE AND JOBBING CENTRE

The key position of Edmonton on the map of the Northwest and described above, makes it an important distributing point for a large territory. From the earliest times it was a natural trading centre. In the days of the fur trade it was the principal point west of Winnipeg on the transcontinental route and the head of navigation on the North Saskatchewan River. From Old Fort Edmonton via Fort Assiniboine, the goods for the Hudson's Bay posts west of the Rocky Mountains were regularly despatched. Today Edmonton holds an analogous position in the trade of Western Canada. Besides many independent local firms, the number of wholesale houses includes branches of the most important firms of Eastern Canada and the United States, representing every branch of mercantile trading.

### INDUSTRIES

The vast supplies of raw materials available in the area adjacent to Edmonton and its central location for distribution, makes Edmonton a key City for industrial expansion. Dairy and meat packing industries are firmly established and rank amongst the top in the Dominion. Garment factories, iron foundries, steel and sheet metal products and many other industrial lines are produced here. The available supply of coal and natural gas as economical fuel make Edmonton a favorite location for those contemplating an industry in Western Canada.

### A GRAIN CENTRE:

Edmonton is the centre of the grain trade for Northern and Central Alberta. A Government Terminal Elevator has storage capacity for 2,500,000 bushels, and most of the important grain companies of Western Canada, including the Wheat Pool, are represented on the Edmonton grain market.

### EDMONTON LIVE STOCK YARDS

One of the public terminal livestock markets of Canada is located at Edmonton and operated under government supervision. Livestock to the value of several millions of dollars passes through Edmonton Stock Yards and the various packing plants of the City every year.

### AGRICULTURE

Among the Province of Canada, Alberta is regarded as one of the richest and most varied in natural, undeveloped wealth. Edmonton is the centre of the largest area of agricultural land of any city in Canada. Most of the land is still in the raw state, but annually over half a million acres of new land is brought under cultivation. The finest quality of wheat, oats, barley and peas are grown.

### DAIRYING

Agriculture in the Edmonton District is developing rapidly along mixed farming lines. Edmonton is the heart of the dairy industry of Alberta and is the largest single export centre for butter in Canada. It is also the export centre for the dehydration of eggs and the packing of poultry.

### COAL

Alberta contains 18 percent of the coal supply of the world and 85 percent of the coal of Canada. In the Edmonton District it is estimated there are thirty billion tons of known coal reserves.

### OIL AND ASPHALT

Alberta has become recently the greatest oil producer in the British Empire. Important developments are in progress in the Turner Valley field, in Southern Alberta. Edmonton is particularly interested in the Wainright and Vermilion oil fields west of Edmonton on the Canadian National. Here an area of several thousand square miles is regarded as a favorable oil field.

Only 30 miles south of the City at Leduc, Alta, is the new discovery of Oil which promises to be the greatest crude oil producing field in Canada, and is the most important recent development on the North American continent.

Two hundred and fifty miles north of Edmonton in the vicinity of McMurray, there is an area of 15,000 square miles of bituminous sands. These deposits are of great economic value in the construction of hard-surfaced roads.

### SALT

Tributary to Edmonton are salt deposits sufficient to supply Western Canada. Beds 100 and 200 feet thick have been found at Fort McMurray. Salt works were erected and in recent years has doubled its output.

### FISHERIES

The fresh water lakes of the Edmonton District provide a growing industry in whitefish and trout, and other commercial fish. Over 7,500,000 pounds annually were taken from these lakes. Fishing is carried on in winter and summer seasons. The output is sent to the United States.

### EDUCATION

Edmonton is the educational centre of Alberta. It is the seat of the Provincial University and has an excellent organization of primary and secondary schools. The University was founded in 1906 and opened for teaching in 1908. It has grown to be one of the outstanding institutions of learning in Canada, with a staff of over 100 professors and an attendance of 2,000 students. Degrees are granted in arts, science, agriculture, engineering, medicine, pharmacy, law, and commerce. There are seventy-seven Protestant and R. C. grade schools and ten High Schools.

In addition there are a number of private schools and business colleges.

### LIBRARIES

Edmonton has two excellent libraries. The Edmonton City Library contains 125,000 volumes. A bus has been equipped as a travelling library to serve outlying districts and has an annual circulation of over 60,000.

The Provincial Library, situated in the Parliament Buildings, contains 50,000 volumes, and is rich in works and documents relating to the early history of Western Canada.

### HOSPITALS

Edmonton has four hospitals of the first rank—The Royal Alexandra (municipal) 565 beds; the General, operated by the Grey Nuns, 275 beds; the Misericordia, operated by Sisters of the Misericordia, 225 beds; the University Hospital under control of the University of Alberta. Isolation Hospital, 100 beds (municipal). In addition there is a branch of the Provincial Mental Institute, and a special hospital operated by the Provincial Health Department for victims of infantile paralysis. Newly erected, is the Colonel Mewburn Pavilion of the University Hospital, which has accommodation for 250 members of the Armed Forces convalescing or needing medical treatment.

### CITY GOVERNMENT

Edmonton is governed by a Council composed of ten aldermen, elected for two years, one-half retiring each year, presided over by a Mayor, elected for one year, and a Board of three Commissioners, one of whom is the Mayor.

### MUNICIPAL OWNERSHIP

Edmonton owns and operates all the public utilities of the city—light, power, telephones, waterworks, street railway and airport, now leased to the Dominion Government. The principle of public ownership has been firmly adhered to by the people of the city since the purchase of electric light system in 1902, when the then town of Edmonton made its first venture upon this policy.

On the whole, this policy has been successful in Edmonton.

### ELECTRIC POWER PLANT

Electricity is generated by steam produced in a boiler plant, fired by Edmonton coal. The capacity of the turbine generators is 40,000 kilowatts. In 1927 a new 10,000 kilowatt turbine generator was added to the plant. It was the first turbine of this capacity on the continent operating at the high speed of 3,600 revolutions per minute. The current is at a voltage of 13,000 volts and at this pressure is transmitted to the outgoing feeders. In 1939 was added Steam works generator, 15,000 k.w. capacity; one Sterling boiler type, capacity 155,000 pounds per hour; new pumping station to supply circulating water for new equipment. To meet the City's growing requirements, in 1944, a second 15,000 k.w. turbine and 155,000 pound per hour generating boiler were installed.

### WATER PUMPING AND FILTRATION

Water is pumped from the Saskatchewan River. Due to turbidity at high water periods all water for domestic and industrial purposes is filtered and sterilized before forced into the city mains. Low-lift pumps with a capacity of 54,000,000 gallons per day raise the water from the river to a mechanical clarifier basin where sediment is removed. Thence the water flows into agitator tanks to which a proper amount of sulphate of alumina is added, forming aluminum hydrate. The water then flows into large stilling basins where the hydrate coagulates all the sediments and deposits them on the

bottom of the basin. Now the water is ready for filtering through sand and gravel beds which remove all traces of foreign matter and most of the bacteria (if present). Before the water is sent by high lift pumps into the mains it is treated with liquid chlorine in quantities proportioned to bacterial tests, which are made daily. By these means the water supply is clear and pure. The pumps have capacity of 28½ million gallons per day. In 1941 it was considered desirable that water for city requirements be softened, and a 75 P.P.M. lime and soda ash treatment is used.

#### **STREET RAILWAY**

The street railway system commenced operation on November 9, 1908, with 12 miles of track and 2 cars. By 1914

trackage increased to 52 miles and rolling stock to 87 cars, 12 trolley buses and 13 motor buses. Trackage is presently being abandoned in favor of the Trackless Trolley Coach and more improvements are expected in the near future.

#### **TELEPHONES**

Edmonton embarked in the telephone business January 1st, 1905, by purchasing the Edmonton District Telephone Company. In 1908 the Strowger Automatic system was installed and 800 subscribers cut over from the old magneto switch board. Since that time there has been an average increase of 700 telephones every year. The plant has an ultimate capacity of 99,000 lines. Telephones in service as at December 31, 1947, exceed 30,000.

## **Civic Administration**

#### **COMMISSIONERS, 1948**

Mayor—H. D. Ainlay  
Commissioners—J. Hodgson and D. B. Menzies.

## Two Lists Deferred

# Council Appoints for 1949 Civic

Representatives on 10 civic boards, recommended by the nominating committee, were approved Monday night by city council and officially appointed.

Recommendations on personnel for the hospital board was tabled until a future meeting, as council was informed there "was no immediate hurry." Seven Exhibition Association board members also will be named later.

Committee appointments approved were:

Archives and Landmarks: M. M. Downey, W. E. Edmonds, T. E. Garfield, city solicitor, and Mrs. Margaret Williams, all for two-year terms.

Board of Health: Ald. Gleave and Ald. Tanner; Dr. G. H. Brown, public school board; J. A. Gallant, separate school board, all for one year; and Dr. D. R. Easton, for two years.

Boxing and Wrestling Commission: C. H. Croft, Dr. L. R. Dodds, and F. W. Kemp, all for two years, and A. Wynnychuk, for one year to fill the vacancy created by resignation of Frank Heller.

Gas Approval Board: Ald. Bowcott; D. Watson and J. C. Jefferson, Northwestern Utilities Ltd.; D. E. Gould, master plumbers; and J. Fairhead, journeymen plumbers, all for one year with a plumbing and heating institute representative to be named later.

Library Board: H. Balfour and M. L. Lavalée, for two years, with a third representative to be named.

Memorial Hall Trustees: Ald. Biset, to Jan. 1, 1953.

Recreation Commission: Ald. Parsons, Ald. Hanna; Stewart Graham, public schools; W. C. Bateman, separate schools; and James Bill, all for two years.

Town Planning Commission: Robert Allsopp, J. T. J. Collisson and Ald. Hanna, all for three years.

Zoning Appeal Board: John Martland, Alberta Architects' Association, for five years.

Industrial Development Board: Graham W. Curtis, city industrial commissioner, Ald. Ford, Ald. Mitchell and Carl E. Berg, Edmonton Trades and Labor Council, all for one year.

## its 10 Boards Business

### Street and Avenue Directory

### 1948

#### SPECIAL NOTICE

◆ This Symbol following the residence name, indicates that to the best of our knowledge someone living in the house is the owner.

✱ This Symbol indicates that a telephone is located at this number on the street.

This information is compiled by a special house-to-house personal canvass. We do not guarantee to be absolutely correct in every detail, but we believe it to be very accurate and complete, as far as it has been possible for us to get the information personally from residence.
